SET
The Stock Exchange of Thailand

The Stock Exchange of Thailand
The Stock Exchange of Thailand was incorporated under the Securities Exchange of Thailand Act, B.E. 2517 (1974). Operations started on April 30, 1975. As a nonprofit hub for securities trading and related services, SET serves to promote savings and long-term capital funding for the economic development of the nation. SET encourages the general public to become shareholders in domestic businesses and industries. Currently, SET operates under the legal framework laid down in the Securities and Exchange Act, B.E. 2535 (1992). SET core operations include listing securities, supervision of information disclosures by listed companies, oversight of securities trading, and monitoring member companies involved in trading securities, as well as dissemination of information and education to investors.

Global Green Chemicals Public Company Limited

Sector/Subsector : Petrochemicals & Chemicals

We are looking for : Industry market knowledge to enhance marketing channel in oleochemical and future businesses

Company Introduction

GGC's aspiration is to become a leading Green Chemical Company. Currently our two main businesses are biofuels and biochemicals which include Methyl Esther (ME), Fatty Alcohols (FA) and Glycerine. These products are commonly used in the automotive industry, personal care, home care, and pharmaceuticals. With our current investment projects, GGC will be expanding into bioplastics which is an exciting industry and we will be able to provide higher value-added products to the global marketplace and ultimately achieve our company's aspiration.
